AUDITOR'S REPORT

February 23, 1961

To the Inhabitants of the Town of Winterport
Winterport, Maine

Pursuant to the request of your municipal officers we have completed an audit of the books of account and records of the Town of Winterport for the fiscal year ended February 1, 1961.

The audit was conducted in accordance with generally accepted auditing standards and therefore included all procedures deemed necessary in the circumstances. The audit included a verification of cash and a review and analysis of the accounts of the assessors, selectmen, treasurer, tax collector, excise tax collector and town clerk. A test check of taxes receivable, unpaid tax liens and accounts receivable was made in a manner considered necessary in the circumstances.

Your attention is invited to the appended comments and to suggestions and recommendations which are considered to be worthy of your consideration.

We hereby certify that a true copy of this report has been forwarded to Department of Audit, State of Maine.

Respectfully submitted,

Donald H. Will Associates

NOTE: You will note that on the above 2 sewer jobs there is a large overdraft on 1 and an unexpended balance on the other. The reason for this is that much of the supplies were delivered to and charged to the Marine Street job, and when that was finished, the balance was taken to the Main Street job.

SURPLUS COMMODITIES

These government surplus commodities are donated and the town has to pay the freight. The freight this year was \$384.48. This year we delivered 1400 lbs. of rice; 9,740 lbs. flour; 3776 lbs. dry milk; 4500 lbs. meal; 723 cans of 13 oz. each of dried whole eggs; 1310 lbs. lard; 800 lbs. beans. These commodities have been a great help to a great number of our citizens. Those who were able to call at the town office for them have done so; some of the older ones and the shut-ins and those having no transportation have had them delivered by the overseers of the poor. There is really a great feeling of satisfaction to know that so much good has come from these surplus commodities. We are again recommending the raising of \$500.00 to pay the freight, so that it will not have to come from the town poor account.

WELL BABY CONFERENCES

The IOOF has again been most generous in making their hall available for our well-baby clinics. Eight clinics were held last year; four in the Spring and four in the Fall. The average attendance has been 23. Vaccinations, Polio Shots, Triple vaccine, and Physical Examinations were given.

SCHOOL HEALTH PROGRAM

In October the children in grades 1 through 8 were weighed and measured and their records brought up to date. In this way we can check their growth each year. In October and November, Public Health Nurse, Mrs. Emma Creamer, assisted by Mrs. Irene Norris, gave hearing tests to students in grades 1 through 12.

ADULT POLIO CLINIC

Polio clinics were held for adult residents in July and August. A third clinic will be held in March.

SICK ROOM SUPPLIES

Available are:

- 2 pair adult crutches
- 2 wheel chairs
- 1 pair children's crutches
- 6 vaporizers
- 1 hospital bed with detachable rails

This year we purchased 3 new vaporizers. These supplies are available to any resident of Winterport in need of them, and are at the home Mrs. Harry Dann on Main St. The wheel chairs are at Mrs. Malcolm Foley's. The only stipulation placed on the use of the sick room supplies is that they be returned as soon as they are no longer needed so that they may be made available to others.

ACKNOWLEDGMENTS

Members of the Council wish to thank Mrs. Emma Creamer, Dr. Samuel Wagner, Mr. Bernard Pierce, the School Committee and the teachers of both schools for their cooperation. Thanks, too, to the townspeople for their generosity in making the Health Council Tag Days a success.

Respectfully submitted,

JEAN SHERWOOD, Chairman,

ANNUAL REPORT OF PUBLIC HEALTH NURSING

Public health, in simple terms, is the sum total of the health of individuals and families living in a community. An organized program for public health is one that offers those individuals and families every possible chance of living and enjoying life, free from the handicaps of preventable disease and disability. In more formal terms, the objective of a public health program is to bring to all the people the benefits of modern medical and related sciences including the care and rehabilitation of the sick and disabled, the promotion of healthful living, and the prevention and control of disease.

A number of people are involved in the attaining of this objective. All together they make up a "health team." The public health nurse is an essential member of this team. She shares in planning and action with other workers in the fields of health, education, and welfare; with physicians, hospitals, clinics; with school personnel; with citizen groups. One of her important functions is coordination with the others involved to provide public health services to individuals, families, and community. Citizens of the community are also essential members of the health team. Alert to the health needs of their community, taking their share of responsibility to meet these needs, their contribution as health workers is indispensable to the effectiveness of the public health program. A vital, dynamic, working "health team" in the local community strengthens the public health not only of that community, but also of the State and the Nation.

Your public health nurse submits the following summary of public health nursing services in your town for the year 1960:

Eight child health conferences were held with an attendance of 230 infants and preschool children. Forty-one received vaccination against smallpox; 82 completed their immunizations against diphtheria, whooping cough and tetanus; 192 received polio vaccine.

Two-hundred seventy-one school children participated in the school immunization clinic. Ninety-six were vaccinated against smallpox, 262 received diphtheria and tetanus inoculation, and 48 were given polio vaccine. Six hundred fifteen school children were given the audiometer test to find those with defective hearing.

Ninety-eight visits were made to prenatal and postpartum patients, infants, preschool and school children, and to children known to Crippled Children's Services, Pediatric Service, Cardiac Clinic, and the Division of Tuberculosis Control — the various State Bureau of Health Programs.

Fifty-three interviews were held with school personnel, town officials, local physicians, committee members, and other agencies to plan and carry out these public health nursing services.

As Local Health Officer I was able to obtain from the State Dept. of Health & Welfare the vaccine for the adult Polio clinics FREE. A third shot is due for the adults, that had the first and second shots, in March 1960. The State Dept. is unable to say, at this time, if free vaccine will be available for the March Adult Clinic, therefore, it may be necessary to charge a small fee for the vaccine. The Winterport Health Council furnished the necessary materials and workers for the Adult Clinic.

FIRE DEPARTMENT

To the Inhabitants of the Town of Winterport:

The following is a report of your Fire Dept.

We answered a total of 31 calls this past year; we had 10 House Fires; 7 Chimney; 7 Grass; 3 Brush; 4 Miscellaneous.

This past year we have made a tank truck out of the old truck and have added a 100 gallon per min. pump to the Department. I wish we could have a place to store these trucks, so we could use them in the winter months when fires are more apt to happen.

WINTERPORT CITIZENS' COMMITTEE FOR BETTER SCHOOLS

Your committee encountered some problems in the initial stages of organizing a truly representative town wide committee and therefore little constructive study was accomplished until late in the fall. Even now we would welcome the membership of citizens willing to work on subcommittees studying phases of our public schools.

School room space was given first priority and you have already had the benefit of this subcommittee's study in the preliminary report published in January. Other subcommittees were established to study the finances of our schools, the teachers' salaries and welfare, the curriculum of our public schools and the teaching aids and materials available for the use of our teachers and administrators. The results of these studies should be available to you prior to the Annual Town Meeting in this committee's annual report.

Most of the subcommittee members feel that they have only scratched the surface and that much can be accomplished by further expanding the studies of curriculum, teacher's welfare, finances and teaching aids. Also it is felt that studies of the educational goals of our public schools and the methods of organizing to obtain those goals might prove rewarding.

We, who have helped organize this committee, feel that this is a very profitable venture and hope you agree. To aid us in continuing its operation we are sponsoring an article to elect two (2) directors to replace those whose terms will expire this year.

We are pleased by your indicated interest in the public schools of Winterport and hope that as a committee we may justify your confidence by presenting to you the factual results of our studies in an unbiased manner.

RICHARD L. SAWYER, Chairman

WINTERPORT CENTENNIAL COMMITTEE

The Town of Winterport celebrated its 100th year in 1960 with a week of festivities held the week of July 3rd. The celebration was a success with all programs and events well attended and received. The committee wishes to extend its sincere thanks to: the clubs and organizations and their members who took part in presenting programs and events during the week, the U. S. Navy for the visit of the U.S.S. Limpkin July 2 thru 5th, the Town Officials and Constables for their cooperation in all matters, the citizens of the Town for the financial aid given at the last Town Meeting and their attendance at the programs during the Centennial Week.

At the final meeting of the Committee a cash balance of \$214.10 was reported with all bills and expenses paid. At this meeting a suggestion was made by the Woman's Club that a permanent Historical Museum be set up in the Town Library and the above mentioned cash balance be used in this project. This Committee recommends the acceptance of this project. An article in the Town Warrant, will give the citizens of the Town an opportunity to act on this recommendation.

The Planning Board has held several meetings this year. We were pleased to see the interest evidenced by the Selectmen through their attendance at some of our meetings. Work has been done by members of the board on mapping. However, it will require about another month to complete the map after the weather breaks. Copies of the map will be made available to the various Town Departments soon after its completion.

No new appropriation is requested since it is our opinion that existing funds on hand will take care of anticipated expenditures.

We made the recommendation in March 1960 that the Old High School Building be sold on bid for the sole purpose of tearing it down for salvage. This year we are presenting an article for your consideration to accomplish our recommendation.

REPORT OF THE SCHOOL LUNCH PROGRAM

REPORT OF THE SCHOOL LUNCH PROGRAM

Mrs. Porter, Supervisor

C. H. Rice	600.00	
	<hr style="width: 100px; display: inline-block; vertical-align: middle;"/> \$ 1,200.00	

Remarks concerning the financial picture will be found in another section of this report.

An average of 270 Type A meals a day have been served this school year. The meals have met the standard set by the State Department of Education regarding the amounts of protein, vitamins, milk, etc. The cost to the child has remained the same despite rising costs of food. Where three or more children in one family participate in the lunch program, the cost per child is 25 cents per day; teachers pay 35 cents and all others pay 30 cents.

Until February 6th, the staff included the supervisor, 2 full time workers, and 2 part time workers, paid \$35.00 \$25.00 and \$20.00 per week respectively. On the 6th, one full time worker was dropped and the rest of the staff, at no increase in pay, is absorbing the extra duties in an effort to cut expenses.

Surplus commodities have been less plentiful this year with an oversupply of dried eggs, dried milk and flour, and a decided lack of meat, vegetables and fruit, making it necessary to purchase nearly all of the last named foods. It should be noted that, even though government surplus foods are free, transportation on them must be paid — in fact, to date, it has cost \$135.37 for freight on these surplus foods.

National School Lunch Week was observed January 30 through February. Because of conflicting activities, it was impossible to entertain the school officials and guests at luncheon during this week. However, at this writing, it is planned to hold this luncheon on February 15, when guests will be served the menu planned for the children and will have an opportunity to observe the program in action.

In an effort to foresee the future of the Lunch Program, I have tried to make an estimate of the financial picture from now until the close of this school year. Following is what I find: (14 weeks remaining)

Receipts:

From Children (Average \$250.00 per week)	\$ 3,500.00
From State (Average \$225.00 per month)	1,125.00
(Total Rec. possible)	<hr/> \$ 4,625.00

Expenses:

Labor	\$ 1,095.65	
Food	1,540.00	
Taxes	304.35	
Express & other	140.00	
Outstanding Bills	1,200.00	
	<hr/>	4,280.00
Balance	\$	<hr/> 345.00

The above is a very conservative estimate and, while it would appear that we can finish the year with a balance, the following should be taken into consideration.

1. The above will only be possible if surplus foods are more plentiful during the spring term.

2. Should we be able to close the program with a balance of \$345.00, this is a very small amount on which to open again in the fall. The program has to be in operation for two months before State checks start to come in and commodities are also slow in the fall.

3. To insure that the program can continue two possibilities might be considered:

- a. Raising price of lunch to children
- b. An appropriation by the town to be used in an emergency and with the understanding that should the program end a year with a balance beyond foreseeable needs, a reimbursement might be made to the town.

The program is one which is worthwhile, a conviction shared by everyone, I believe, but it is up to the people as to what should be done about it.

Another suggestion that I would like to make is that some charitable organization in town take free lunches as a project. We have had several instances this year where it has been necessary to allow free lunches. The State expects any town participating in a subsidized program to do this, but there is no extra money to take care of such lunches. We receive the 4½ cent reimbursement from the State as on all Type A lunches, but the other cost of giving a free lunch must be made up from general funds. Free lunches are not given promiscuously, but only after careful consideration of the situation by the Superintending School Committee, Principals and Town Officials, and when lunches are given it is only because there is a real need. Therefore, I feel this would be a very worthwhile project for some organization and one which would help the program as well.

In closing, may I express again, to all of you, my thanks for your continued cooperation and support. Particularly, I would thank the following:

Mr. Bernard Pierce, Supt., and the School Committee

The Faculty in both schools

The Students

Mr. Jepson, who is always ready to lend a helping hand

My staff, who try so sincerely, and take so much interest in making the lunches nourishing and attractive and who are always willing to help in extra school activities.

To all of you I am very grateful.

Respectfully,

RUTH PORTER,

Lunch Supervisor

Two rooms in the Elementary Building have double grades and one in the Smith Building has a double grade.

Departmental Teaching

Students in Grades 5-6-7 and 8 are assigned to home rooms, but the rooms are not self-contained in the matter of teaching. Each teacher, in so far as possible, teaches one subject in all these grades. In the opinion of many, this arrangement has the advantage of having a teacher handle the subject she or he is best qualified to teach. Furthermore, if there is an outstanding teacher, each grade will receive some instruction from this teacher. There is a definite trend throughout the country to arrange departmental teaching in the upper grades.

BUILDING NEEDS

The High School

The basic fact to bear in mind is that the swell in enrollment in the lower grades several years ago is seriously affecting enrollment in the high school; and this a common experience in most towns and cities.

Our high school now has a population of 133 and in September 1961 the enrollment may be as high as 145 even with the usual number of dropouts.

What is the situation in available space for the high school?

There are four classrooms for six teachers.

The Science laboratory and typing room are partly used for classrooms and thus limited in their intended use.

There is no separate room for a library which is now located in a side corridor. This area is too small and it is lacking in an atmosphere of study and research. Furthermore, a building corridor should be free for exit purposes. A high school library should be large enough to accommodate ten percent of the student body and there should be suitable library equipment.

Briefly, the high school needs three more rooms: two classrooms and space for a library.

One more teacher will even the teaching load and provide for a somewhat broader course of study.

Elementary Grades

Looking forward to 1965, these grades need 17 classrooms. These grades presently occupy 12 rooms and there is no subprimary.

If the proposed new elementary school building is constructed, the rooms could take care of a subprimary and grades one through four. I would recommend incorporating grades 7 and 8 with the high school program, making a six-year high school. This arrangement would make it easier to include more advanced studies for the junior high school group — especially for the more able student.

The ideal plan would be to build enough classrooms and abandon the elementary building on School Street. In the light of modern education, this building is not suitable for these reasons:

The classrooms are too small; the play area is very inadequate; corridors are too narrow; and there is no assembly room and no really suitable place for serving the school lunch.

Furthermore, the arrival and departure of busses is a daily source of danger and possible accident.

The building needs described above are essential. Without the additional space school children and teachers will be under a serious handicap. The program will be costly, but the town will not save money by delay.

The Building Committee

The Building Committee appointed last January is sending out its own report; and in Town Meeting will submit a plan and estimated cost for a nine room elementary building with an all-purpose room. I would recommend the plan and emphasize the importance of an all-purpose room. Some school and teaching activities requiring a large area are:

Audio-visual teaching program.

Physical education for all children.

Occasions when a teacher needs to speak to a large group.

School social activities.

Furthermore, an all-purpose room could serve as a civic center.

It is admitted that school expansion and improvement will be expensive. It appears that the only source of assistance is from the Federal government; and the bill now before Congress may bring financial aid to towns like our own.

We must bear in mind that the annual cost of paying for school construction is only part of the expense. The bill for additional teachers and maintenance will be even larger than the payment for principal and interest for construction.

Teacher Salaries

Teacher salaries in Winterport are low when compared with the state average. This is especially true for elementary teachers. This is well-known but nothing drastic is done about it.

One of the most effective moves the town can make for school improvement is to raise salaries to a much higher level. New school buildings and low teacher salaries do not go together in planning improvement.

Conveyance

The two busses purchased by the town over ten years ago have about served their usefulness. In the last two years new engines have been installed in these busses, but the bodies are now beyond repair. Some of the side panels are rusty and loose; dirt and dust blow through the cracks, and these two busses do not heat properly.

The acquisition of the government surplus bus has made it possible to arrange schedules so that the time of departure from and arrival at home is more reasonable than in the past.

I have recommended the purchase of a new 72 school bus, and there is money for this in the proposed budget. It would not be necessary to ask for a special appropriation.

Finances

Appropriation requests this year are identical with those of a year ago, even though gross expenditures will be \$11,000.00 higher. This may be explained by the following:

1. Winterport will receive in December 1961 a subsidy payment larger by \$14,900.00.
2. We anticipate an additional sum of \$1500.00 from the Federal government for education of children whose parents are federally connected.
3. There are no overdrafts to carry forward.

Major items of expense in the Repair and Equipment Account were purchase of typewriters, desks and chairs; and interior painting in both buildings.

It is planned to purchase many more new desks and chairs for the elementary building. Most of the desks in the elementary building should be discarded.

Observations

The Citizen's Committee is to be commended for its school survey. If citizens will read the reports of sub-committees, they will have a much better understanding of our school situation.

The Report of the Lunch Supervisor shows that it is difficult for the program to be self-supporting. It may be necessary in time to ask for an appropriation to help pay members of the lunch staff.

I believe the tone and morale of our schools have improved over the last year and this is due to the very fine efforts of our principals and teachers. We were sorry to lose Robert Spear, high school principal; and we welcome Allen Ross as his successor.

I wish to thank members of the school committee, parents, and citizens for their understanding and cooperation; and it is most encouraging to see the entire town moving toward better schools.

Respectfully submitted,

BERNARD B. PIERCE

AUDITOR'S REPORT

February 19, 1962

Board of Selectmen
Winterport,
Maine

In accordance with Chapter 90-A, Revised Statutes of 1954, an audit has been conducted of the financial records of the Town of Winterport for the fiscal year ended February 1, 1962.

The examination was made in accordance with generally accepted auditing standards that pertain to governmental accounting. The audit analysis included such tests of the accounting records and other auditing procedures as were considered necessary in the circumstances.

The financial and statistical sections incorporated in this report, subject to the accompanying comments, present the results of the Town's financial operations for the period indicated.

Respectfully submitted,

MICHAEL A. NAPOLITANO

State Auditor

COMMENTS

TOWN OF WINTERPORT

February 2, 1961 to February 1, 1962

An audit of the financial records of the Town of Winterport has been completed for the fiscal year ended February 1, 1962. The audit consisted of an examination of the records maintained under the supervision of the Town Manager and municipal officials.

The operations for the year showed that the net unexpended departmental balance lapsed amounted to \$21,847.22, per the following summary:

Departmental Operations:	
Unexpended Balances	\$28,543.52
Overdrafts	6,696.30
	<hr/>
Net Unexpended Balance	\$21,847.22

Revenue derived from automobile excise and supplemental taxes were the major factors contributing to the amount lapsed to surplus. The larger overdrafts occurred in the snow removal and salaries accounts.

The following comments pertain to the accompanying financial statements and to the scope of audit.

ASSETS The general cash balance of \$52,006.79 was on deposit in the Merchants National Bank, Bangor, Maine at February 1, 1962.

Accounts receivable of \$1,475.81 represented principally welfare accounts due from the State of Maine and other municipalities.

Taxes receivable totaling \$25,071.66 consisted for the most part of current year accounts of \$20,261.14. The remaining balance of \$4,810.52 was for prior years' accounts dating from 1955.

Tax liens and tax acquired property totaled \$3,079.74 and \$4,783.81 respectively.

LIABILITIES, RESERVES AND SURPLUS The appropriation accounts showed a net unexpended balance of \$6,734.36 consisting of various operating account balances and overdrafts that are carried forward to the ensuing year in accordance with legal requirements and/or customary practice.

The unappropriated surplus amounted to \$77,802.91, an increase of \$22,198.93 for the year. The change was occasioned for the most part by the net unexpended departmental balance lapsed.

DEBT FUND The debt fund, incorporated in the balance sheet as a separate fund, reflects the outstanding school addition note of \$4,280.00, which matures August 10, 1962 with interest at $3\frac{3}{4}\%$.

TRUST AND SPECIAL FUNDS The trust fund principals totaled \$6,665.40 and unexpended income amounted to \$1,314.08. These funds are invested in time deposits in the Bangor Savings and Penobscot Savings Banks, Bangor, Maine.

The McKenney Fund for special purposes showed a balance of \$3,457.92 on deposit in the Bangor Savings Bank and the Merrill Trust Company, Bangor, Maine.

DEPARTMENTAL ACCOUNTS The departmental operating accounts showed an increase of \$6,065.68 in funds raised by taxation, as compared with the preceding year. Larger assessments for the county tax and for general government were the principal factors contributing to the increase.

The departmental balance carried forward to the ensuing year decreased by \$1,264.95, as compared with the balance at the start of the year. The change occurred principally in the unclassified accounts.

GENERAL A transfer of \$500.00 from surplus for a special Citizens Committee for school purposes was authorized at a special town meeting held in December, 1960.

A review of the valuation records indicated the desirability of strengthening some of the property descriptions.

SCOPE OF AUDIT

The system of internal control was reviewed as pertained to the handling of cash and other matters of financial concern. Count of cash was made and records checked to determine the accuracy of recording cash transactions.

Cash accounts were verified by reconciliation of bank statements furnished by the depository or by bank confirmation. Verifications were utilized, on a test basis, to determine the correctness of recorded assets and liabilities.

An analysis was made of receipts and deposits as well as expenditures and negotiated checks. Vouchers, payrolls and cancelled checks were examined for a selected period.

Excise tax collections were verified with copies of receipts retained by the collector. Education account balances were reconciled with the Superintendent of Schools. Debt and trust fund transactions were examined. Surety bond coverage was reviewed.

In our opinion, subject to the foregoing comments, the accompanying statements and supporting information present fairly the financial position of the Town at February 1, 1962, and the results of its operations for the year then ended.

SELECTMEN'S REPORT ON PURCHASE OF WATER COMPANY HOLDINGS

At the 1961 annual town meeting the Selectmen were instructed to investigate the possibilities of the purchase of the holdings of the Winterport Water Company by the Town of Winterport.

The officials of the Winterport Water Company were contacted and they refused to set any price upon their Winterport holdings. They would agree only to having an appraisal made by two competent engineering firms, one representing the Town and the other the Water Company to determine the value of the property in order to arrive at a purchase price.

We have had three different engineering firms bid upon the job of making a complete appraisal of the property, their prices for doing the work ranged from two to four thousand dollars.

We are unable to advise the Town upon the advisability of the purchase of the properties of the Winterport Water Company until such time as a price can be determined.

We have had inserted in the warrant an article to raise and appropriate the sum of \$2,100.00 the amount necessary to continue this study and to see if it is the wish of the people to so continue.

Board of Selectmen

REPORT OF THE WINTERPORT HEALTH COUNCIL

Fiscal Year 1961-1962

Officers

Cora McLeod, Chairman

Marjorie Dunham, Secretary

Doris Pellon, Vice-Chairman

Dorothea Dillon, Chairman

Beatrice Raymond, Treasurer, Child Health Committee

The Health Council functioned as usual with an Adult Clinic for Polio shots in March 1961 at which 48 adults attended. There were Well Baby Clinics in March, April, May, June, September, October, November, and December of 1961. These were attended by an average of 30 children. All necessary shots were given at these clinics. The clinics were held at the Methodist Vestry this fall and winter as the I.O.O.F. hall was unavailable.

In October we weighed and measured all the children in Grade 1 through Grade 8 and recorded the measurements on their health records.

We have various pieces of sick room equipment which we loan to the citizens to help in the care of the sick. To inquire in regards to this call Mrs. McLeod 223-4331. At this time I should like to ask if anyone has any equipment which they no longer need and would like to give or loan the same to the Winterport Health Council, we would appreciate it very much as sick room equipment is in great demand.

I should like to personally express my thanks to all the members of the Health Council for the help they have shown to me this year.

Also our thanks and gratitude to Doctor Samuel Wagner, Mrs. Creamer who has retired this year and to Miss Joan Clark, who has taken her place as Public Health Nurse; for all their prompt attention to our various needs both in the school program and the Well Baby Clinic.

To our teachers, principals, school committee and Mr. Bernard B. Pierce, Supt. goes our thanks and appreciation for their cooperation with our programs.

May I say in closing that there are many openings yet to be filled in our health council work and we would certainly enjoy hearing from anyone who feels they could help us.

Respectfully submitted,

CORA L. McLEOD, Chairman

**Annual Report of Public Health Nursing Services in Winterport
for the year 1961**

The general purpose of public health nursing is to help people and the community as a whole to achieve and maintain optimal health. Your public health nurse carries out this purpose by giving preventive, therapeutic, and rehabilitative services to individuals and families in their homes; through health services in schools; and through organized community programs for prevention of illness and promotion of health.

A summary of public health nursing services given to the town of Winterport during the year 1961 follows:

1. 132 home visits, of which 20 were maternal and infant visits, 20 were to preschool children, 25 to school children, 19 to crippled children and 48 to tuberculosis patients and contacts.
2. 8 child health conferences with a total attendance of 229 preschool children. The following number of children completed the immunization series:
 - 41 Smallpox Vaccination
 - 95 Poliomyelitis
 - 76 Diphtheria-Whooping cough—tetanus
3. 1 Poliomyelitis immunization clinic with a total attendance of 311 school children, 252 of whom completed the immunization series.
4. 10 teacher-nurse conferences.

Thanks and appreciation are extended to the Health Council, doctor, health officers and other town officials, superintendent and teachers, and other citizens without whose assistance this much needed service could not have been achieved.

Respectfully submitted,
JOAN M. CLARK,
Public Health Nurse

LOCAL HEALTH OFFICER

During the fiscal year ended February 1, 1962, reported cases of communicable disease in Winterport were: 6 Chickenpox; 1 Impetigo; 53 Mumps; 1 Pediculosis; 12 Scarlet Fever. The total of cases reported (73), almost four times as many as last year, falls short of the number which should have been reported.

Our health and welfare service agencies urge us as citizens to be diligent in our obligation to report contagious disease to the local health officer. Our prompt and total reporting of individual cases is translated by them into action vital to man's health and survival. Our efforts thus become links in a chain of activity which extends from the local community, through the State level, to the United States Public Health Service and World Health Organization.

Some communicable diseases which our laws require us to report are:

- Brucellosis (Undulant Fever)
- Chickenpox
- Conjunctivitis (Pink Eye)
- Diarrhea of the Newborn, Epidemic
- Diphtheria
- Dysentery, Baccillary
- Food Poisoning and Food Infection
- German Measles
- Hepatitis, Infectious
- Impetigo
- Influenza
- Measles
- Meningitis
- Mumps
- Pediculosis (Lice)
- Pneumonia
- Poliomyelitis

Rabies, in human beings and in animals
 Rheumatic Fever, Acute
 Ring Worm
 Scabies
 Scarlet Fever and Streptococcal Throat
 Smallpox
 Tetanus
 Tuberculosis
 Typhoid and Paratyphoid Fevers
 Whooping Cough

Among other duties your local health officer has direct responsibilities in sanitary engineering and the abatement of nuisances to public health.

Respectfully submitted,

DOROTHEA DILLON,

Local Health Officer

INDUSTRIAL DEVELOPMENT COMMITTEE

The Industrial Development Committee in its first year of existence has completed an industrial survey of the town. This data was compiled with the help of the Town Office and Mrs. Lockhart. The State Department of Economic Development edited this data and had it printed in brochure form at no expense to the town. This will be sent to interested industries by the state and/or the town. A few copies will be on hand at town meeting for those who wish to see them.

A very worthwhile meeting was held with the Planning Board and two members from the State Department of Economic Development. The two men from Augusta gave us much helpful information concerning the operation and cooperation of our two town committees.

Now that the industrial survey has been completed, an all-out effort should be made to induce businesses to locate in our town. The State Department of Economic Development feels that Winterport is in a very good position geographically to grow in this field.

WINTERPORT CITIZENS' COMMITTEE FOR BETTER SCHOOLS

The recommendations made in our 1961 report are still pretty much applicable as we still have our crowded classrooms, split grades, no subprimary grades, no salary schedule to attract qualified trained teachers and a limited high school curriculum which continues to encourage our high dropout rate.

We are still pleased with and aware of your interest in the public schools of Winterport and stand ready to make further studies and reports when it becomes evident that they would be helpful.

Respectfully yours,

RICHARD L. SAWYER,

Chairman

PLANNING BOARD

During the past year the Planning Board has completed the map of the Village area. We have two sizes, at scales of 1 inch equals 100 feet and 1 inch equals 200 feet. A copy of the smaller size is posted in the Town Office.

Considerable time was spent by members of the board and the Town Manager in obtaining data to complete the map. Many of you observed us measuring the streets and your houses. We wish to apologize for not asking your permission to measure your places, but we were hurrying to complete the task before cold weather.

We are submitting three articles in the warrant for your consideration. One concerns an ordinance to regulate mobile homes. At present mobile homes are not a problem in Winterport, but since other towns within commuting distance of Bangor have ordinances, they could develop into a serious health and tax problem here in the future. We feel it is better to act now and not wait until a problem develops. The same is true of the proposed ordinance for the regulation of subdivisions. It will prevent the development of low quality housing with inadequate health standards and streets, etc., and subsequent high maintenance costs to the town.

A third article we have inserted in the warrant is to elect a budget committee. This committee would have no power except to recommend to the town at the next annual town meeting the appropriation for each department. This would provide a check on the amounts asked for by the selectmen, school board, and all other town departments, and insure that the town is not appropriating money needlessly.

The Planning Board meets regularly on the second and fourth Thursdays of each month at 7:30 p. m. in the Town Office. The meetings are open to the public, and we invite your attendance.

Chairman

Elementary School—Crowded Conditions in Primary Grades

It is generally agreed that 25 pupils is the desirable number in an elementary grade. At present in our elementary building each classroom has in excess of 25. There are two rooms with divided grades and in two rooms there are over 35 pupils.

The first three years of school are most important; and crowded conditions make it difficult to effect growth and development in reading and number work. Both the slow and the able student are under a handicap.

It appears that the entering first grade will be at least 60 each year; and this will, of course, crowd classrooms more and more in the elementary building. If all of the fourth grade is retained in this building next year, the enrollment will be about 210 and three rooms will house nearly 40 students. Part of grade 4 could be moved to the Smith Building, but we would then be creating crowded conditions in this building.

The only relief for this situation is new construction; and as citizens know, the Building Committee has applied to the Maine School Building Authority for a loan for construction of a nine-room elementary building. Such a building would provide the following improvements:

1. Two classrooms for each grade and reduce the size of classes to normal.
2. Make it possible to have a subprimary.
3. By removing elementary grades from the high school building, the high school would have more space; and in particular provide a special room for the library.
4. The proposed building also includes a small gymnasium and this space would be of great value to all grades.

At the present writing, there is some question about the time of new construction. On February 6, the school committee was informed that the application for a loan was denied on the grounds that the Maine School Building Authority did not approve the type of building planned by Winterport.

The cost of schools with new construction would, in a general way, include the following: school maintenance as of the present, the cost of five more teachers, and the cost of paying the loan (principal and interest) for the proposed new construction.

The High School

A seventh teacher was added to the staff last year. This addition lightened the teaching load for each teacher; and, in particular, reduced the number of different subjects taught by each teacher. This has been a decided improvement. On the high school level each teacher should be allowed to teach only his special subject.

Next year it is anticipated that the enrollment will be about 140. It may be pointed out that our high school is too small and the taxing power too limited to offer a broadened curriculum. At present, there are three courses; College Preparatory, Commercial and the General Course. The cost of space and equipment for Agricultural, Shop and similar courses, is almost prohibitive. It is cheaper for the town to send such students to other high schools.

Educational Policies Adopted by the School Committee Marks

All grades in every subject shall be related only to the scholar's knowledge of the subject. Relative rank in class, in class groups, attitude and effort shall have no significance in grade determination. Additional report card comments on these and other characteristics may be added within the discretion of the teacher.

Passing at the End of the Year

No scholar shall be passed on to the next grade until he has demonstrated in the opinion of the teacher, a satisfactory understanding of the subject matter offered in the current grade.

Exception: Any student who, in the opinion of the principal with the advice of the teacher, is incapable of absorbing the subject matter of the current grade even with two years' exposure to same. In no case will this exception be applied to any student who has not repeated any grade since entering school.

The Teaching of Reading

Reading shall be taught with emphasis on phonetics from the first grade. The adoption of phonic teaching as embodied in the books of the Economy Press.

Theme Writing

Every student from grade 6 through 12 will be required to write a theme each week. It is to be corrected and handed back by the teacher.

Teachers' Salary Schedule

A Teachers' Salary Schedule was adopted by the school committee last October. It is based on experience in Winterport and chiefly on merit.

The decision to raise salaries was wise since teacher salaries in Winterport have been at least \$600.00 below state average. Last summer it was most difficult to secure teachers at the salaries offered. The raising of teacher salaries is the most important single improvement for schools for a long time.

Last March the committee gave a \$100.00 raise across the board. In October each teacher was granted another \$400.00. New teacher salaries in effect next September will give at last twelve teachers another \$500.00. If a teacher is rated "Superior," there will be another \$500.00 added to the salary. Between October 1961 and September 1962 at least twelve teachers will have received a salary raise of \$900.00 each.

The salary schedule adopted last October compares very favorably with such large centers as South Portland, Cape Elizabeth, Rumford and Bangor.

The new salary schedule is given below:

TEACHERS' SALARY SCHEDULE

Consecutive Years Experience in Winterport	Less Than 3 Years Total Experience	Classification	
		Superior	Other
0	\$3,800		
1	3,900		
2	4,000		
3		5,050	4,550
4		5,150	4,650
5		5,250	4,750
6		5,350	4,850
7		5,850	5,300
8		5,950	5,400
9		6,000	5,500
10		6,100	5,600
11		6,200	5,700
12		6,300	5,800
13		6,400	5,900
14		(Max.) 6,500	(Max.) 6,000

Teachers with less than 3 years' total experience start in Winterport at \$3,800. After third consecutive year here, they receive a raise of \$550 or \$1050, the latter figure to be used for teachers then classified as "Superior."

At the end of the teacher's seventh consecutive year, he receives another raise of \$450. In all other years, the annual raise is \$100 to a maximum of \$6,500 for those with a merit classification of "Superior" and \$6,000 for all others.

Classification of each teacher with at least three years experience in Winterport will be made annually by the School Committee with the advice of the Superintendent. Salary will be adjusted accordingly for the next year.

Teachers with at least three years' total experience will be hired at \$4,550 and subject to classification after three years' experience in Winterport.

Annual raises will be limited to \$500 only for teachers not yet on schedule. (This is to avoid too great a financial burden on the taxpayer initially.)

Salaries of Principals will be determined by the school committee.

REVISIONS AS OF JANUARY 9, 1962:

a. All the years of service in Winterport will be counted regardless of any interruption of years' of service.

b. Pay for Extra Duties (chiefly athletic) will be as follows:

Driver Education	\$ 400
Track and Cross Country	200
Wrestling	200
Girls' Basketball	200
Junior Varsity	50
Varsity Baseball & Basketball	400

Conveyance

The condition of the older town-owned busses was described last year and there was a recommendation for purchase of at least one new bus. This has not been done and there is no definite plan for new busses.

The public is doubtless aware that these two busses are in very poor condition: they are at time dusty and they do not heat properly in cold weather. It is a duty to provide conveyance that recognizes the comfort, safety and health of the pupils.

Income From Federal Government

During this fiscal year, Winterport received \$6,163.00 from the federal government for education of children whose parents reside in Winterport and are federally connected. Next year, the Town expects to receive nearly \$5,700.00. If it were not for this assistance, the school appropriation would be higher.

Powers and Duties of the School Committee

1. The management of schools and the custody of all school property.

2. To direct the general course of instruction and approve a uniform system of textbooks.

3. To dismiss any teacher who proves unfit to teach or whose services they deem unprofitable to the school.

4. To expel any obstinate and disorderly pupil after a proper investigation of his conduct.

5. Determine what description of scholars shall attend each school, classify them and transfer them from school to school where more than one school is kept.

6. To adjust salaries of teachers, principals and other person legally employed by them.

7. To elect teachers upon nomination by the superintendent of schools.

The superintending school committee is the only agency invested with this authority.

A few observations

The Lunch Program so far this year has paid its way. Those in charge are to be congratulated. Federal surplus commodities have been received in greater amounts than ever before.

Mrs. Emma Creamer, Waldo County Public Health Nurse, who retired at the close of 1961, deserves great credit for her services to this town through many years. Best wishes to her in her retirement period.

The most important job in the school system is that of the teacher in the classroom. Anything we can do to provide for efficiency on the part of the teacher and security while on the job, will result in improvement in our schools.

I wish to thank teachers and all school personnel for their faithful services during the year.

Respectfully,

BERNARD B. PIERCE

Supt. of Schools

The unappropriated surplus amounted to \$83,671.55, an increase of \$5,868.64 for the year. The change was occasioned principally by the net unexpended departmental balance lapsed, less adjustments.

DEBT FUND . . . The debt fund, incorporated in the balance sheet as a separate fund, reflects the outstanding school bus purchase notes of \$11,806.40. These obligations mature during the next five years with interest at 3¼%.

TRUST AND SPECIAL FUNDS . . . Trust fund principals totaled \$17,865.40 and unexpended income amounted to \$1,712.18. These funds are invested in time deposits in the Bangor Savings and Penobscot Savings Banks, Bangor, Maine.

The McKenney Fund for special purposes showed a balance of \$3,351.75 on deposit in the Bangor Savings Bank and the Merrill Trust Company, Bangor, Maine.

REPORT OF THE WINTERPORT HEALTH COUNCIL

Fiscal Year 1962-1963

Health Committee

Cora McLeod, Chairman Marjorie Dunham, Secretary
Doris Pellon V. Chairman
Beatrice Raymond, Treasurer
Irene Norris, Chairman, Child Health Committee

The Health Council held well Baby Clinics in March, April, May, June, October, November and December, averaging about 30 babies a clinic. All shots were given and physicals were available for all pre-school children whose mothers consented to them. The clinics were held in the Methodist Vestry.

In October, all school children, Grade I to VIII were weighed and measured and this was recorded on the health records.

- One volunteer from the Health Council worked with the State Department Health & Welfare in giving the T.B. tests to Grade I, VIII, & XII

Family clinics for Sabine Oral Vaccine were held in the Town Hall. 271 took Type I vaccine at the October 28th clinic, and 306 took Type II at the January 13th clinic.

Booster shots of the Salk Polio Vaccine were given to 69 school children.

Another hospital bed has been purchased and there are plans for the purchase of small equipment in the near future.

AUDITOR'S REPORT

February 28, 1963

Board of Selectmen
Winterport,
Maine

In accordance with Chapter 90-A, Revised Statutes of 1954, as amended, an audit has been conducted of the financial records of the Town of Winterport for the fiscal year ended February 1, 1963.

The examination was made in accordance with generally accepted auditing standards and accordingly included such tests of the accounting records and such other auditing procedures as were considered necessary in the circumstances.

In our opinion, the exhibits and schedules incorporated in this report, present fairly the financial position of the Town at February 1, 1963, and the results of its operations for the year then ended.

Respectfully submitted,
M. A. NAPOLITANO
State Auditor

COMMENTS

TOWN OF WINTERPORT

FEBRUARY 2, 1962 TO FEBRUARY 1, 1963

An audit of the financial records of the Town of Winterport has been completed for the fiscal year ended February 1, 1963. The audit consisted of an examination of the records maintained under the supervision of the Town Manager and municipal officials.

The operations for the year showed that the net unexpended departmental balance lapsed amounted \$8,439.22, per the following summary:

Departmental Operations:

Unexpended Balances	\$ 18,858.18
Overdrafts	10,418.96

Net Unexpended Balance	\$ 8,439.22

I should like to personally thank all members and non-members for the help they have given me this year.

Also, our thanks to Dr. Samuel Wagner and Miss Joan Clark, our Public Health Nurse, who has steered us on the right track more than once. Our thanks to the teachers, principals, school committee and to our Superintendent of Schools, for their cooperation with our programs.

May I again say that we have room for more workers, who may be able to help us even if only once in a while. If you feel that you could help in any capacity, let me hear from you.

Respectfully submitted,

CORA McLEOD, Chairman.

MAINE DEPARTMENT OF HEALTH AND WELFARE
DIVISION OF PUBLIC HEALTH NURSING,
BUREAU OF HEALTH

Annual Report of Public Health Nursing Services in
Winterport in the year 1962

Your public health nurse is a member of the staff of the Department of Health and Welfare, Division of Public Health Nursing. These nurses render what is termed a generalized service which means that the nurse gives service to people in their homes, in schools, and in the community.

A summary of public health nursing service is presented in Table 1:

TABLE 1

Activity	Number of Times Rendered
Home visits to persons of all ages	122
Infants	2 visits
1-5 years	18 visits
6-20 years	12 visits
Adults	12 visits
Maternity	1 visit
T. B. cases or contacts	34 visits
Crippled children	20 visits
Persons with other health problems	23 visits
Child health conferences (medical examinations - 33)	7
Teacher-nurse conferences	17
Conferences with health council members	25
Conferences with town officials	14

Within the child health conference setting, the children received immunizations from a physician as requested by the parents. Table 2 shows the type of immunization and the number of children protected against each disease.

TABLE 2

Type of Immunization	Number Immunized
Poliomyelitis	83
Diphtheria-Tetanus-Whooping Cough	47
Smallpox	28

A tuberculosis test was offered to children in the entering, eighth, and twelfth grades. One-hundred forty children received the test. Positive reactions to the test were discussed with the child's parents by the nurse.

Appreciation is extended to the health council for its assistance with the immunization clinics, to the teachers for their interest, and help within the community.

LOCAL HEALTH OFFICER

During the fiscal year reported cases of communicable diseases among Winterport citizens were:

31 Chickenpox

3 German Measles

1 Infectious Hepatitis

37 Influenza

42 Measles

1 Infectious Mononucleosis

11 Mumps

1 Pneumonia

34 Skin Infections and Infestations

1 Streptococcal Nasopharyngitis

The total cases reported (162), over twice that of last year, falls short of the number which should have been reported. Let us remember that we are required by our laws to report all cases of all contagious diseases to the local health officer. In this way we may make a start toward fulfilling our responsibilities in promoting public health.

Respectfully submitted,

Overcrowding in all grades is seriously detrimental to good education. Some rooms have little or no aisle space, creating safety hazards. Lack of rooms has necessitated the operation of double grades where the teacher can only give half her time to each class. An immediate building program is vital to the progress of Education in Winterport. The Building Committee is completing plans for an eight-room High School Building with gymnasium, library and shop space. This plan will provide the specialized areas necessary for good secondary education and vacate the L. H. Smith School for elementary class expansion. The projected cost of the building, erected and equipped is \$250,000.00. Construction costs have risen steadily over the last twenty years. The longer we wait the higher the ultimate cost will be to the Town.

REPORT OF THE MUSIC SUPERVISOR

To the Superintendent, School Committee,
and Citizens of Winterport:

THE GENERAL MUSIC PROGRAM in the Elementary School has undergone some distinct changes this year, most important of which is a greater emphasis on music reading and the fundamentals of notation. This program I feel will give the student something a little more tangible to take with him from his music classes, and will aid in strengthening and defining his music growth, leading eventually to a real understanding and appreciation of music.

OUTLINE BOOKS have been placed in each classroom to aid the teachers in presenting the material when I am not present. The booklet contains all music material for the year, and the classroom teacher can if she wishes prepare herself well in advance.

INTEREST IN INSTRUMENTAL MUSIC seems to be higher in the Elementary and the Junior High School than it is in the High School. The beginner group this year has been very successful and at this writing numbers fourteen which shows the possibility of a better future. An evening rehearsal is held once a week for the students and any interested adults. Anyone who plays an instrument and would like to attend is welcome. The rehearsals are held at the High School every Wednesday evening at eight o'clock.

In closing I would like to thank all the teachers who have helped in putting through our music reading program on the Elementary level.

Respectfully submitted,

LEO J. LePAGE

REVALUATION AND TAX MAPS

Article 54 of the 1962 warrant instructed the selectmen to obtain estimates or bids on a revaluation of property by an outside independent professional appraising firm.

We found that in order to revalue the property of the town for tax purposes we must first obtain tax maps. No firm with a sound reputation would attempt to do the work without maps, although we did obtain a bid based on the assumption that the maps would be made. Their bid was \$8,000.00 to revalue all real estate property and \$800.00 to revalue all personal property.

We have obtained bids for making the maps and the cost to the town will be \$6,500.00 and we have inserted in the warrant a proper article for you to vote to raise and appropriate this amount it being your wish to do so.

VOTING

In the process of changing over to the five member school committee and the election of the selectmen and assessors for three year terms the ballot this year will be slightly more complex than usual.

Read the instruction on the ballot as to the number of candidates you are to vote for, for each office.

You are to vote for *three* members of the school committee regardless of the number of candidates. In voting for members of the Board of Selectmen you are to vote for *two* members for a term of three years, *two* members for a term of two years, and *one* member for a term of one year. In voting for Assessors you are going to vote for *one* member for a term of three years, *one* member for a term of two years, and *one* member for a term of one year.

AUDITOR'S REPORT

February 14, 1964

Board of Selectmen
Winterport, Maine

Pursuant to your request, an audit has been conducted of the financial records of the Town of Winterport for the fiscal year ended February 1, 1964.

The examination was made in accordance with generally accepted auditing standards and included such tests of accounting records and such other auditing procedures as were considered necessary in the circumstances.

In my opinion, the exhibits and schedules incorporated in this report, present fairly the financial position of the Town of Winterport at February 1, 1964, and the results of its operations for the year then ended.

Respectfully submitted,

MILLARD E. LIBBY

Auditor

The complete Audit report is on file at the Town Office.

C O M M E N T S

TOWN OF WINTERPORT

February 2, 1963 to February 1, 1964

An audit of the financial records of the Town of Winterport has been completed for the fiscal year ended February 1, 1964. The audit consisted of an examination of the records maintained under the supervision of the Town Manager and municipal officials.

The operations for the year showed that the net unexpended departmental balance lapsed amounted to \$10,157.62, per the following summary:

Departmental Operations:	
Unexpended Balances	\$19,452.31
Overdrafts	9,294.69
	<hr/>
Net Unexpended Balance	\$10,157.62

Revenue derived from automobile excise taxes, the overlay and income from town property were the major factors contributing to the amount lapsed to surplus. The larger overdrafts occurred in the snow removal and school bus notes.

The following comments pertain to the accompanying financial statements and to the scope of audit.

ASSETS — The general cash balance of \$67,160.77 was on deposit in the Merchants National Bank, Bangor, Maine at February 1, 1964.

Accounts receivable totaling \$356.60 comprised principally of welfare accounts are due from the State of Maine, other municipalities and individuals.

Taxes receivable totaling \$25,894.51 consisted for the most part of current year accounts of \$18,939.74. The remaining balance of \$6,954.77 was for prior years accounts dating from 1958.

Tax liens and tax acquired property totaled \$3,832.37 and \$6,164.09 respectively.

RESERVES AND SURPLUS — The appropriation accounts showed a net unexpended balance of \$7,627.18 consisting of various operating account balances that are carried forward to the ensuing year in accordance with legal requirements and/customary practice.

The unappropriated surplus amounted to \$93,434.70 for the year. The change was occasioned principally by the net unexpended balance lapsed, less adjustment of accounts receivable.

DEBT FUND — The debt fund incorporated in the balance sheet as a separate fund, reflects the outstanding school bus purchase notes of \$5,903.20 which mature in 1965 and 1966 with interest of $3\frac{1}{4}\%$.

TRUST AND SPECIAL FUND — Trust fund principals totaled \$17,865.40 and unexpended income amounted to \$2,388.12. These funds are invested in the Bangor Savings and Penobscot Banks, Bangor, Maine.

The McKenney Fund for special purposes showed a balance of \$3,891.32 in the Bangor Savings Bank and the Merrill Trust Company, Bangor, Maine.

DEPARTMENTAL ACCOUNTS — The departmental operating accounts showed an increase of \$10,762.01 in funds raised by taxation, as compared with the preceding year. An appropriation for tax maps and larger appropriation for education were the principal factors contributing to the increase.

The departmental balances carried forward to the ensuing year decreased \$1,579.39, as compared with the balances at the start of the year. Larger balances in highways, charities and unclassified accounts, less an overdraft in education accounts were the principal factors contributing to the change.

SCOPE OF AUDIT

The system of internal control was reviewed as pertaining to the handling of cash and other matters of financial concern. Count of cash was made and records checked to determine the accuracy of recording cash transactions.

Cash accounts were verified by reconciliation of bank statements furnished by the depository. Verifications were utilized, on a test basis, to determine the correctness of recorded assets and liabilities.

An analysis was made of receipts and deposits as well as expenditures and negotiated checks. Vouchers, payrolls and cancelled checks were examined for a selected period.

Excise tax collections were verified with copies of receipts retained by the collector. Debt, trust and special fund transactions were examined. Surety bond coverage was reviewed.

REPORT OF THE WINTERPORT HEALTH COUNCIL

Fiscal Year 1963 - 1964

Ruth Green, Chairman Esther Ellingwood, Secretary
Marion Ryan, Vice Chairman Beatrice Raymond, Treasurer
Irene Norris, Chairman, Child Health
Alma Doe, Chairman, School Health

The Health Council held Well-Baby Conferences in March, April, May, June, September, October, November and December, averaging 21 babies a clinic. D.P.T. and Salk Polio shots were available as well as Smallpox Vaccinations and physicals for all pre-school children. The Clinics were held in the Methodist Vestry.

The third Sabine Oral Polio Clinic was held in the Town Hall on April 28th with an attendance of 368 people. Vaccinations for adults were also offered at this clinic and 14 adults and 2 Boy Scouts received vaccinations.

On May 7th, all of the students in Mrs. Wood's first grade received Gamma Globulin shots against Hepatitis. A total of 29 children and 1 adult received this shot.

On June 19th a fourth Sabine Oral Polio Clinic was held in the Legion Hall to re-offer Type No. 2 with 35 attending.

One volunteer from the Health Council worked with the State Department of Health and Welfare in giving the P.P.D. tests to Grade 1, 7, 8, and 12 for a total of 166 tested.

In November, all school children Grades 1 through 8 were weighed and measured and this was recorded on the school health records. Records were checked for unusual gains or losses in weight.

Two new Vaporizers have recently been purchased by the Council and are available to any families needing them. Hospital beds, wheelchairs and other sick room equipment is also available.

I wish to personally thank all members of the Council who have so willingly helped during the year. Also, our thanks to Dr. Samuel Wagner and Mrs. Ruby Hills, our Public Health Nurse, who has helped in numerous ways. Many thanks to the teachers and principals for their co-operation in our school program.

There is always room for more workers in your local Health Council. If you are interested in the work, the regular meetings are held on the first Tuesday of February, April, June, September and December. Anyone is welcome.

Public Health Nursing is a special field of nursing directed toward the promotion of health, prevention of disease, and rehabilitation of individuals and families. Some of its nursing service is given in group activities, but much of its service is given directly to individuals in their homes. When service involves treatment of disease or preventive measures, she works under the direction of a physician. The nurse shares planning and action with workers in other health, education, welfare, and citizen groups.

Appreciation is extended to each local officer, school personnel member and health council member for the interest and cooperation which promoted the community health program.

LOCAL HEALTH OFFICER

HOUSEHOLDERS, teachers and physicians have reported a much lower number of communicable disease cases during the fiscal year. This indicates that we have many unreported cases. There were made only fifty-eight reports of communicable diseases. Of these, twenty were chicken pox, two German measles, two hepatitis, ten pediculosis, seven pneumonia, twenty-four influenza, one injury by biting or by scratching (rabies control) and two tuberculosis.

On the other hand we increased our efforts to raise our standards in alleviating nuisances, unsanitary conditions and other threats to private and public health. There were rather more than the usual number of reports made and corrections effected in these matters.

Reports may be made by writing, by personally calling on your Health Officer or by telephoning 223-4855 after 7 p.m., please.

Respectfully submitted,

DOROTHEA DILLON

PLANNING BOARD

The Planning Board has been working on a number of projects, none of which are ready to be presented to the Annual Town Meeting. The maps we have been working on for some time are making good progress, and it is expected that they, as well as most of our other projects will be completed in the near future.

Citizens are welcome to come to the Board's meetings, and to make suggestions. Its regular meetings are at the Town Office on the first Wednesday evening in the month.

-----------------------	-------------

Many changes have been effected in your Schools during the past year. Standards of achievement were set up for those pupils taking occupational courses out of Town. Insurance coverage has been consolidated and increased. Elementary Teachers are studying all major Publishers' offerings in the field of Arithmetic to select a new text that best fits Winterport's needs.

The Townspeople voted not to take advantage of a Special Legislative Act to increase the borrowing capacity of the Town so that money for additional classroom space would be available.

In September of 1963, 74 children entered the first grade while 29 went from grade eight to High School. This necessitated another classroom. The only suitable space in Town was the former Town Office, in the basement of the Town Hall. Extensive alterations convinced the State Department of Education to grant temporary approval of the room for classes. It is evident that our grades are overcrowded now. If enrolment in the first grade in September of 1964 is the same as the past few years, overcrowding may lead to a loss of State Subsidy. Simple arithmetic proves that Winterport must have more classrooms—Now. Your School Administration has searched for additional areas where detached classes might be housed. None have been found that meet even the most minimum State Department requirements.

For the fall school opening Elementary grades and the High School switched ends of the L. H. Smith School. This was done to consolidate each group's working spaces and to eliminate needless corridor traffic of one group through the other's area during class time. The change has proven beneficial.

Several new teachers have joined our ranks for this school year and, in spite of large classes, are making major contributions to the improvement of your childrens' education.

The Financial Report shows a net deficit in all accounts of \$6,795.35. The major cause is a quirk of the calendar. It is the policy in most school districts to charge a given payroll to the fiscal year in which the day it is due falls. Our first payroll of fiscal 1963 fell on February 1, 1963. All but one day of the two week payroll period was actually in fiscal 1962. Because of this, there were 27 payrolls this year instead of 26, the last one falling due on January 31, 1964. This does not affect any salaries, which are paid on either a weekly or yearly basis. It means only that sums are charged to one year, because of bookkeeping procedure, that were partially payable in another year. This situation will not occur again for another eleven years.

Other factors contributing to an overdraft was the extra expense of books where class sizes were unexpectedly increased, and extra repairs needed for the Town Hall Classroom.

I wish to thank the Principals, Teachers and Staff for their deep interest and extra effort in behalf of the pupils. To those parents who have labored long and hard, my sincere appreciation.

AUDITOR'S REPORT

February 13, 1965

Board of Selectmen
Winterport,
Maine

Pursuant to our request, an audit has been conducted of the financial records of the Town of Winterport for the fiscal year ended February 1, 1965.

The examination was made in accordance with generally accepted auditing standards and included such tests of accounting records and such other auditing procedures as were considered necessary in the circumstances.

In my opinion, the exhibits and schedules incorporated in this report, present fairly the financial position of the Town of Winterport at February 1, 1965, and the results of its operations for the year then ended.

Respectfully submitted,

MILLARD E. LIBBY

Auditor

The complete Audit report is on file at the Town Office.

COMMENTS

TOWN OF WINTERPORT

February 2, 1964 to February 1, 1965

An audit of the financial records of the Town of Winterport has been completed for the fiscal year ended February 1, 1965. The audit consisted of an examination of the records maintained under the supervision of the Town Manager and municipal officials.

The operations for the year showed that the net unexpended departmental balance lapsed amounted to \$6,941.51, per the following summary:

Departmental Operations:	
Unexpended Balances	\$17,283.07
Overdrafts	10,341.56
<hr/>	
Net Unexpended Balance	\$ 6,941.51

Revenue derived from automobile excise taxes, the overlay and income from town property were the major factors contributing to the amount lapsed to surplus. The larger overdrafts occurred in the snow removal account and the payment of school bus notes.

The following comments pertain to the accompanying financial statements and to the scope of audit.

ASSETS . . . The general cash balance of \$70,627.14 was on deposit in the Merchants National Bank, Bangor, Maine at February 1, 1965.

Accounts receivable totaling \$425.64 comprised principally of welfare cases are due from the State of Maine, other municipalities and individuals.

Taxes receivable totaling \$29,737.31 consisted for the most part of current year accounts of \$21,578.13. The remaining balance of \$8,159.18 was for prior year accounts dating from 1959.

Tax liens and tax acquired property totaled \$3,304.08 and \$6,542.76 respectively.

RESERVES AND SURPLUS . . . The appropriation accounts showed a net unexpended balance of \$8,869.40 consisting of various operating account balances that are carried forward to the ensuing year in accordance with legal requirements and/or customary practice.

The unappropriated surplus amounted to \$100,376.21, an increase of \$6,941.51 for the year. The change was occasioned by the net unexpended balance lapsed.

TRUST AND SPECIAL FUNDS . . . Trust fund principals totaled \$17,865.40 and unexpended income amounted to \$3,091.31. These funds are invested in the Bangor Savings and the Penobscot Savings Banks, Bangor, Maine.

The McKenney Fund for special purposes showed a balance of \$4,628.84 in the Bangor Savings Bank and the Merrill Trust Company, Bangor, Maine.

DEPARTMENTAL ACCOUNTS . . . The departmental operating accounts showed an increase of \$6,574.99 in funds raised by taxation, as compared with the preceding year. A larger appropriation for education and a smaller appropriation for tax maps were the principal factors contributing to the increase.

The departmental balances carried forward to the ensuing year increased \$1,242.22 as compared with the balance at the start of the year. An increase in the charity account balance together with the lesser overdraft in education were the principal factors contributing to the change.

SCOPE OF AUDIT

The system of internal control was reviewed as pertained to the handling of cash and other matters of financial concern. Count of cash was made and records checked to determine the accuracy of recording cash transactions.

Cash accounts were verified by reconciliation of bank statements furnished by the depository. Verifications were utilized, on a test basis, to determine the correctness of recorded assets and liabilities.

An analysis was made of receipts and deposits as well as expenditures and negotiated checks. Vouchers, payrolls and canceled checks were examined for a selected period.

Excise tax collections were verified with copies of receipts retained by the collector. Debt, trust and special fund transactions were examined. Surety bond coverage was reviewed.

REPORT OF THE WINTERPORT HEALTH COUNCIL

Fiscal Year 1964-1965

Ruth Green, Chairman Esther Ellingwood, Secretary
Marion Ryan, Vice Chairman Beatrice Raymond, Treasurer
Irene Norris, Child Health Chairman
Alma Doe, School Health Chairman

SCHOOL HEALTH PROGRAM

In January and February the Health Council held School Clinics with a total of 273 Diphtheria-Tetanus shots given, 270 polio shots and 89 vaccinations. In October all children, grades one through twelve, were weighed and measured and this was recorded on their school health records and special notice given to any unusual gains or losses in weight. In December, a volunteer from the Health Council worked with the State Dept. of Health and Welfare in giving P.P.D. tests to grades one, seven and twelve. We have been unable to give audiometer tests in the school this year as there is no audiometer available for this purpose and we feel there is a very definite need for such a machine.

WELL BABY CONFERENCES

During the year eight well baby conferences were held in the Methodist Vestry, four in the spring and four in the fall, with an average of 24 babies and pre-school children attending. D.P.T. and Salk Polio shots as well as Smallpox Vaccinations and Physicals are available at each clinic with a Doctor and Public Health Nurse in attendance.

SABIN ORAL POLIO CLINICS

A second series of Sabin Oral Polio Clinics were held this year in February, April and May with an average of 134 adults and children attending. Also adult vaccinations were offered at the May polio clinic and 8 adults took advantage of this.

SICK-ROOM EQUIPMENT

We wish to acknowledge the gift of a walker, donated to the sick room supplies by Mr. and Mrs. Creighton Parker. Hospital beds, bed rails, wheelchairs, crutches, (both adult and children's) as well as vaporizers are available to anyone in Winterport needing them, free of charge.

ACKNOWLEDGEMENTS

I wish to personally thank all members of the Council who have so willingly helped during the year. Also our thanks to Dr. Samuel Wagner for his cooperation and Mrs. Ruby Hills, our Public Health Nurse, who has been most helpful in an advisory capacity. Also thanks to the teachers and principals for their cooperation in our school health program which we feel is a very important part of our over-all health program in Winterport.

Respectfully submitted,
RUTH GREEN, Chairman

ARTICLE FOR TOWN WARRANT

February, 1965

Recommendation of the Council: \$400.00.

RUTH GREEN, Chairman
Health Council

PUBLIC HEALTH NURSING

MAINE DEPARTMENT OF HEALTH AND WELFARE
Division of Public Health Nursing, Bureau of Health

Annual Report of Public Health Nursing Services in Winterport in the year 1964

Public health nursing is a special kind of nursing concerned with prevention of disease, early detection and prompt treatment of illness, rehabilitation and home care of patients. Your public health nurse is a staff member of the Division of Public Health Nursing, working under medical direction to promote better family and community health.

She assisted community leaders with planning and execution of health-teaching group activities. Examples of these were immunization clinics to offer protection against certain communicable diseases, program for early detection of disease, and child health conference for health supervision of the well infant and preschool age child.

Your public health nurse conferred with physicians, town officials, school personnel, welfare workers and others interested to provide care for patients and for referral to proper agency. She gave direct service to patients at home by giving guidance and counsel to them and their families, by helping them to follow medical direction by teaching them self-care, or by teaching home nursing care to some other individual responsible for them.

The following presents some of the public health nurse's activities:

Nursing Activity	Number of Times Rendered
Home visit to persons of all ages	116
Conference - physician in behalf of patient	11
Conference - school personnel	10
Conference - official/Health Committee member	8
Conference - all others	13
Group participation	12
Child health conference	8
Immunization clinic	2
Tuberculin skin testing	2

Appreciation is extended to local officers, the Winterport Health Council members and school personnel for the interest and cooperation which promoted community health.

Respectfully submitted,

RUBY HILLS, R. N.

Public Health Nurse

PLANNING BOARD

The Planning Board is working on a long range master, or comprehensive plan for the development and improvement of our town.

The first phase of this work, has been the maps which have now been completed, and may be seen at the Town Office.

Further steps include a programme for the orderly development of the sewerage system looking forward to the construction of a sewage disposal plant when it becomes mandatory, a few years hence.

Consideration is also being given to such things as land use, and the preservation of historical buildings, such as the Congregational Church, and the little brick lawyer's office on Main Street.

A survey is being made of towns similar to ours, to help us determine whether or not a revaluation project would be beneficial here.

Once again it was necessary to request permission from the State Department of Education to house pupils in sub-standard classrooms. The basement of the Town Hall was utilized for the second year and a store in the Odd Fellows building converted to a school room. How long the State will allow the use of these facilities is problematical. Elementary enrollment continues to increase. Each year two first grades enter while one eighth grade moves on to High School. Obviously, a classroom must be added each year. We also should be providing sub-primary education but lack the room. Our High School enrollment has decreased but we still must have the same number of teachers if we are to continue to offer the courses in effect. Of the 35 class periods per week, 32 subjects and 10 study halls are scheduled five times a week, making an aggregate total of 210 teacher-periods per week. This requires at least six teachers, no matter how many students are in each class. We cannot cut our offering and remain an approved secondary school.

The School Committee has exhaustively examined many possibilities, considering each from the best interests of the students, the Town immediately and on a long range basis.

The following are some of the proposals considered and reasons for and against them:

1. An SAD with Frankfort.

A preliminary vote indicated disapproval by Frankfort.

2. An SAD with Searsport, Stockton Springs and Frankfort.

Lack of interest by other Towns. The State has indicated that Winterport's share of costs in such an SAD would be much lower than her proportion of students, thus leading to opposition by these Towns.

3. Send all High School pupils to Bangor.

Tuition would be very expensive, transportation costs high and the Town would have assurance of only five years.

4. Build an 8-room High School building on the Smith School plot — cost approximately \$120,000.00.

It has taken since March of 1964 to obtain approval of the Maine School Building Authority, which holds title to the land, to build.

Such a building would free all of the Smith School for elementary rooms, keeping that group of pupils together. The six rooms vacated by secondary pupils would allow closing of the two sub-standard classrooms, provide for the new room needed in September of 1965, the addition of a sub-primary, and leave two rooms for the expansion we know is coming.

5. An SAD with Hampden and Newburgh (SAD 22)

Here the advantages of a larger High School for our students to attend, room made available for elementary classes and the end of tuition charges for pupils taking occupational courses has been colored by bills introduced in the current Legislature to force Towns into SAD's by 1970.

The School Committee has petitioned the State Board of Education to hold a vote in Winterport and SAD 22 to determine whether such a union is to be effected. When their decision is made, facts and figures will be made available to all.

A definite course of action must be undertaken. Winterport cannot continue to drift. The children are here, entitled to an education. We must provide them with the best possible. The Town has provided good teachers, books, supplies, equipment but lack of space tends to negate the good wrought by them.

I wish to thank the teachers, staff members, parents and organizations who have helped the schools and the children so much during the past year. I think a special thank-you should go to Dr. Samuel L. Wagner for his unstinting efforts as our School Physician — unpaid, I might add. For several years he has spent much of his time giving immunizations, physicals and emergency treatment and I know that the School Department, pupils and parents join me in offering him our grateful appreciation.

AUDITOR'S REPORT

February 14, 1966

Board of Selectmen
Winterport,
Maine

Pursuant to your request, an audit has been conducted of the financial records of the Town of Winterport for the fiscal year ended February 1, 1966.

The examination was made in accordance with generally accepted auditing standards and include such tests of accounting records necessary and such other auditing procedures as were considered necessary in the circumstances.

In my opinion, the exhibits and schedules incorporated in this report, present fairly the financial position of the Town of Winterport at February 1, 1966, and the results of its operations for the year then ended.

Respectfully submitted,

MILLARD E. LIBBY

Auditor

C O M M E N T S

TOWN OF WINTERPORT

February 2, 1965 to February 1, 1966

An audit of the financial records of the Town of Winterport has been completed for the fiscal year ended February 1, 1966. The audit consisted of an examination of the records maintained under the supervision of the Town Manager and municipal officials.

The operations for the year showed that the net unexpended departmental balance lapsed amounted to \$16,788.35, per the following summary:

Departmental Operations:

Unexpended Balances	\$16,056.78
Overdrafts	9,892.59

Net Unexpended Balance	\$ 6,164.19
------------------------	-------------

Revenue derived from excise taxes, the overlay and income from town property were the major factors contributing to the amount lapsed to surplus. The larger overdraft occurred in the snow removal account.

The following comments pertain to the accompanying financial statements and to the scope of audit.

ASSETS . . . The general fund cash balance of \$75,666.30 was on deposit in the Merchants National Bank and the Merrill Trust Company, Bangor, Maine at February 1, 1966.

Accounts receivable totaling \$1,308.41 comprised principally of welfare accounts due from the State of Maine and other municipalities.

Taxes receivable totaling \$30,436.57 consisted for the most part of current year accounts of \$21,399.44. The remaining balance of \$9,037.13 was for prior years' accounts dating from 1959.

Tax liens and tax acquired property totaled \$4,871.53 and \$5,897.48 respectively.

RESERVES AND SURPLUS . . . The appropriation accounts showed a net unexpended balance of \$6,164.19 consisting of various operating account balances that are carried forward to the ensuing year in accordance with legal requirements and/or customary practice.

The unappropriated surplus amounted to \$110,095.26 for the year. The change was occasioned principally by the net unexpended balance lapsed, less an appropriation for the purchase of a new school bus.

TRUST AND SPECIAL FUND . . . Trust fund principals totaled \$17,865.40 and unexpended income amounted to \$3,807.08. These funds are invested in the Bangor Savings and the Penobscot Savings Banks, Bangor, Maine.

The McKenney Fund for special purposes showed a balance of \$5,676.65 in the Bangor Savings Bank and the Merrill Trust Company, Bangor, Maine.

DEPARTMENTAL ACCOUNTS . . . The departmental operating accounts showed a decrease of \$8,370.22 in the funds raised by taxation as compared with the preceding year. Smaller appropriations for highway, education, charities and debt retirement and an increased appropriation for special assessments were the principal factors contributing to the change.

The departmental balances carried forward to the ensuing year decreased \$2,705.21 as compared with the balance at the start of the year. A larger education account overdraft and an increase in administration account balance were the principal factors contributing to the change.

SCOPE OF AUDIT

The system of internal control was reviewed as pertained to the handling of cash and other matters of financial concern. Count of cash was made and records checked to determine the accuracy of recording cash transactions.

Cash accounts were verified by reconciliation of bank statements furnished by the depository. Verifications were utilized, on a test basis, to determine the correctness of recorded assets and liabilities. An analysis was made of receipts and deposits as well as expenditures and negotiated checks. Vouchers, payrolls and canceled checks were examined for a selected period.

Excise tax collections were verified with copies of receipts retained by the collector. Debt, trust and special fund transactions were examined. Surety bond coverage was reviewed.

The complete Audit Report is on file at the Town Office.

REPORT OF THE WINTERPORT HEALTH COUNCIL

Fiscal Year 1965-1966

Esther Ellingwood, Chairman Shirley Shappy, Secretary
Linda Norris, Vice Chairman Beatrice Raymond, Treasurer
Irene Norris, Child Health Chairman
Alma Doe, School Health Chairman

The Health Council held eight (8) Well-Baby Conferences, averaging twenty-four (24) babies per clinic. D.P.T. and Salk Polio shots were available as well as Smallpox Vaccinations and Physicals for all pre-school children. These clinics were held in the Methodist Vestry.

On February 24, 70 children ages 1-5 were given the measles vaccination. Then on November 4, 8 more and December 2, 5 more. Making a total of eighty-three (83) measles vaccinations.

Shortly after school opened this fall, all school children grades 1-8 were weighed and measured and this was recorded on the school records. Records were checked for unusual gains or losses in weight.

At the December Health Council meeting Mrs. Irene Norris resigned as Child Health Chairman; this resignation was accepted with regret. The Chairman appointed Cora McLeod as Child Health Chairman for the remainder of the year. Also, at this same meeting Mrs. Ruby Hills, Public Health Nurse, introduced the council members to their new Public Health Nurse, Mrs. Constance Allen. We regret that Mrs. Hills is no longer in our territory, but wish to welcome Mrs. Allen.

I want to take this opportunity to thank all the members of the Council who have so willingly helped during the year. We also want to express our thanks to Dr. Samuel Wagner and Mrs. Ruby Hills, who have helped us so much. Many thanks go to the teachers and principals for their cooperation in our school programs.

The following equipment is available to any families needing them: vaporizers, hospital beds, wheelchairs, as well as other sick room equipment.

There is always room for more workers in the Health Council. If you are interested in the work, the regular meetings are held on the first Tuesday of February, April, June, September and December. Anyone is welcome.

Respectfully submitted,

ESTHER ELLINGWOOD

Chairman

MAINE DEPARTMENT OF HEALTH AND WELFARE
Division of Public Health Nursing, Bureau of Health

Annual Report of Public Health Nursing Services
in Winterport in the year 1965

Public health nursing service was focused on the prevention of disease, the promotion of health through education, and the rehabilitation of individuals and families. The services were given directly to families in the home, primarily. Your nurse worked in homes, the school and the community. She consulted with other agency personnel, school personnel, and interested towns-people on matters of health import, and planned with them how to use available resources to meet community health needs.

Your public health nurse, a staff member of the Division of Public Health Nursing, participated in a variety of activities, as presented in Table 1.

TABLE 1

Nursing Activity	Number of Times Rendered
Individual visits to persons by age	142
Infant and preschool, 0 to 5 years	59
School, 6 to 20 years	78
Adult, 21 to 64 years	5
Consultation with others	27
Conference with school personnel	14
Conference with volunteer health worker	7
Conference with social worker	4
Conference with physician	2
Attendance at health council meetings	4
Participation in child health conference	8
Number of children examined	56
Participation in tuberculin skin testing program	1
Number of persons tested	156
Participation in immunization program	3

Your public health nurse shared in the management of the activity and assisted the physician within the group immunization clinics. Table 2 presents the number of children protected by the type of immunization.

TABLE 2

Type of Immunization	Number of Children Immunized
Poliomyelitis	162
Diphtheria	158
Tetanus	158
Smallpox	123
Measles	83
Whooping Cough	71

Appreciation is extended to each health council member, school personnel member, and town official for the interest and cooperation which promoted the community health program.

Respectfully submitted,

RUBY M. HILLS, R.N.

Public Health Nurse

LOCAL HEALTH OFFICER

Our towns people have reported only thirty-two cases of contagious diseases this year and only thirty-seven last year, indicating, of course, that there were many unreported cases. Either we do not know that we are required by law to report all contagious disease to the Health Officer or we are negligent. We have increased our activities during these years in eliminating nuisances, cleaning up unsanitary conditions and preventing various threats to public and private health. This is encouraging.

Anyone may contact the Health Officer by calling on me at home or by telephoning 223-4855 *AFTER seven in the evening.*

SUMMARY OF NEW FORESTRY LAWS

To inhabitants of town of Winterport:

Your attention is called to new and revised laws enacted by the 102nd Legislature.

Due to limited space only those that will affect most of you are being summarized at this time. The Title, Chapter, and Section numbers are being given but exact wording has been substituted by a general meaning of these laws.

Title 12, Chapter 215, Sub-Chapter 5, Section 1355

This law states that any town allowing dumping to continue on town dumps closed by the State because they do not meet clearance regulations will lose the town's right to State reimbursement of $\frac{1}{2}$ the costs of control of any escape fire from this dump during time of closure. This is up to 1% of state's valuation of town.

Title 12, Chapter 215, Sub-Chapter 7, Section 1456-A

This states no equipment for producing power shall be operated in or near woodlands *without approved spark arresters or mufflers*. This applies to chain saws, tractors, either manufactured or home-made, or other equipment.

Title 12, Chapter 215, Sub-Chapter 11, Section 1653

Any person who willfully or negligently causes a fire which burns forest, brush, grass or other lands or who fails to take proper action to control a fire on his own land shall be *liable to the state or town for up to \$500.00* of the suppression costs.

Title 25, Chapter 317, Section 2436-A

This sets up control of debris burning when the *ground is not covered with snow*. Debris may be burned out of doors only between the hours of 5:00 PM and 12:00 midnight unless you have an approved incinerator or a special burning permit from your Town Warden or Fire Chief. Incinerator approval may be obtained from your Town Warden or Fire Chief. To meet approval incinerators must be tight containers with 1 inch holes for draft not more than a foot from bottom of container. Top must be tightly covered while burning with mesh or equivalent with holes $\frac{1}{2}$ inch or smaller. Incinerator is to be set in center of circle 10 feet in diameter cleared to mineral soil. Pressurized cans shall not be burned and fire shall not be left unattended.

NOTE: This law applies only to debris burning. Permits for burning slash, brush, blueberry land or fields of dry grass must be obtained for any time of day.

Questions on these laws may be answered by your Town Forest Wardens, Fire Chief or at the nearest Forest Ranger Station.

SUGGESTION: HAUL, OR HAVE HAULED, DEBRIS TO TOWN DUMP. Old automobiles and animal refuse exempted.

SLASH DEFINED: Slash is defined as branches, bark, tops, chunks, cull logs, uprooted stumps and broken or uprooted trees and shrubs left on ground as a result of logging, right of way construction or maintenance and land clearance.

DEBRIS is any manufactured product, household rubbish, hay or other vegetative accumulation or materials not included under slash.

Again it was necessary to request permission from the State Department of Education to house pupils in classrooms outside the regular school buildings. This results in a lower standard of education and is expensive.

The Town voted to join SAD No. 22 but, after a long delay, the Towns already in the district voted not to accept Winterport.

The High School enrollment dropped to a low of 78 and elementary size increased. The School Committee, after examining many alternatives, recommended that the High School be closed and the secondary pupils be tuitioned to Brewer. The Town voted concurrence.

During the summer, when it became apparent that enrollments were continuing to increase, arrangements were made to house two classes in the Legion Hall. This move left the Town Hall Schools vacant and the Committee inaugurated a kindergarten in that building.

Winterport had an allotment of over \$14,000.00 in Federal Funds under Title I, Elementary and Secondary Act of 1965. The State approved some \$10,000.00 of this for the kindergarten for this current school year only.

With sixteen elementary classrooms, it was felt necessary to have a supervising principal. Mrs. Amorette Mitchell was designated Elementary Supervisor in September of 1965 and relieved of her teaching duties.

The administration hopes to make use of further Federal funds to introduce a program of Remedial Reading during the coming year when space is available.

In conclusion I wish to thank all who have worked so hard to further education in Winterport.
